GRASS SEED

FOR ALL PURPOSES IN QUALITY,
QUANTITY, OR DELIVERY REQUIRED

KENTUCKY BLUEGRASS - Desirable quality old crop of good purity and satisfactory germination for prompt or new crop for a little later shipment. Where germination is satisfactory, some grass experts prefer old crop seed.

CANADA BLUEGRASS - Small supplies of last year's seed on hand for early orders, while new crop is not usually on the market before October - November.

REDTOP - Supplies of yearling seed available for immediate shipment. New Crop somewhat later than usual. A good crop of seed appears to have been produced and good harvesting weather only is needed to secure it.

ORCHARD GRASS - Production in this country less than normal but fine quality Danish seed will be available to make up for any shortage.

RYEGRASS - Spot stocks of Imported Pacey's, Perennial and Italian for early business while new crop native and foreign Ryegrass will come along a little later. Prices at present are lower than last season.

MEADOW FESCUE - Is quoted still cheaper than the low prices of last year.

CHEWINGS FESCUE - New crop seed of splendid quality can be supplied for early August demand.

CREeping BENT - Of good quality last season's crop at greatly reduced prices. New crop seed will not be available until after our Fall seeding is completed.

We also carry in stock practically all varieties of other Imported grasses, for which there is a demand.

PARTICULARLY FINE AND REFINED QUALITIES ARE OUR SPECIALTIES.
